ANYTHING ELSE I SHOULD KNOW?	Due to travel cost constraints, the Workshop Sampler is not available as a "stand alone" service outside of Nashville, TN but can be added to a schedule of other engagements in any particular area.	A Full Workshop can be: <ul style="list-style-type: none"> • with just the hosting church's team(s), • a shared workshop for 2 or more churches, or • a larger church hosting the event, inviting others in the area to attend. 	The Workshop Weekend offers the best value & benefit. Applying what has been learned "for real" with continued guidance from M ³ makes all the difference!
